

Press Release

27 February 2008

**Subex to launch customer community portal
for interactive sharing of telecom OSS knowledge**

Bangalore, INDIA: Subex Limited, a leading global provider of Operations Support Systems (OSS) for communications service providers, today announced that it is launching a new online user forum to connect with its customers better and offer them best-in-class support services. The portal will go live by early March this year.

The Subex User Forum has been developed as an extension of Subex's popular user conferences and will be open to customers and select Subex employees by invitation. Components of the forum include a discussion forum, resource center and customer contribution section where Subex customers can share case studies, best practices and other issues related to the OSS space.

"The Subex User Forum is a unique initiative which will go a long way in fortifying our relationship with the customers. The portal, which is exclusive to customers and designated Subexians, will act as a great interactive platform which helps in resolution of key issues and sharing knowledge," said Sekharan Y Menon, Sr. Vice President – Professional Services Organisation, Subex Ltd.

Leading service providers around the world turn to Subex to combat fraud, conduct revenue assurance, correct configuration and interconnect billing errors, manage risks, obtain optimized routes and manage third-party relationships to maximize profits and adopt lean operating principles. With the launch of Subex User Forum the company continues to strengthen its industry position as the foremost thought-leader and innovator, supremely committed to the cause of its customers.

About Subex Limited

Subex Limited is a leading global provider of Operations Support Systems (OSS) that empowers communications service providers to achieve competitive advantage and deliver

new service experiences to subscribers. The company pioneered the strategic concept of the Revenue Operations Center (ROC) – a centralized framework for end-to-end control of a service provider's revenue and costs, fostering operational dexterity for sustained profitability.

Subex's software portfolio powers the ROC and its best-in-class solutions enable new service creation, operational transformation, subscriber-centric fulfillment, provisioning automation, revenue assurance, cost management, data integrity management, fraud management and interconnect/interparty settlement.

Subex's customers include 32 of the world's 50 largest service providers. The company has more than 150 installations across 60 countries.
